U.S. DISTRICT COURT
DISTRICT OF MASS.

**Motion to leave United States
for voluntary deportation.**

In my current declaration wich I am addressing to the Court Administration of District Court of Massachusetts and to judge Mark G. Mastroianni.

I am being in jail detention for almost two and the helf years. Duringthis time I been studied and discovered all evidence of my case, criminal charges wich promoted against me. I am studing Constitution of United States and Federal Law, especialy things related to my case and many other cases similar to mine.

I came to conclusion. I would like to ask Court for a permission to leave this country and for voluntary departure or lawful deportation. There are many reasons why I am asking for that, and most of them I would like to describe in this motion.

1. Because of not having enough evidence from Government to accuse me in charges wich are promoted against me, disagreements between many judges about issued illegal warrant for searching and seizures, unconstitutional conducts of FBI, Law Enforcements and violation of Government prosecutions, I found that there is not concreet decision existed so far.

2. Because of innappropriate work of my former lawyer, I miss a lot of time to advance my case and I miss many very important motions like; a) motion to suppress of evidence in searching, violation of amendmets and Miranda rights by FBI, b) motion to dismiss, c) motion in limine evidence spoliation, and also such a motions like; violation of the constitutional right to speedy trial and delay; and motion of an error in the grant-jurry proceeding or preliminary trial.

3.I convinced that searching of my residence and seizure of my property was unconstitutional and FBI violated IV, V and VI Amendmets individually to my matter. (I described everything in my affidavit wich Court denied for unknown reason.)

4. I don't believe in "good faith exception" wich approved by some judges for constitutional reason and also because it reminds me a former Soviet Union when KGB and Government agents were able to conduct many illegal searchings and arrest anybody they wanted to arrest, and also manipulate and lie to suspects.

5. As a Ukrainian citizen I understand that those accusations against me and charges inapropriate and in accordance with Ukrainian constitution they are not punishable. Also because NIT issues international matter, I believe that I should have a Ukrainian Council presenting in Courts wich is permitted by Rule 5, and also Rule 26.1 "Foreign Law Determination."

They escape convictions, but some other people who sometimes accidentally became suspects and accused for things that they were watching or possessed that Government concluded like illegal and prohibited.

12. In present time I am in jail. I understand that because I am not american citizen, I am nobody here. In most of the time prisoners look at me like they look at different person and I am a different. I miss my cultural values, national traditions and communications with my people. I miss my church, my family and relatives and friends. I was performing with my music for a russian-speaking people. I miss my guitar. I used to live for my people by dedicating myself for a creativity and writing. I want to return back to my free life and keep creating my poems and perform my music. I can not live without it.

My conclusion.

I would like to have permission and opportunity for departure, either voluntary or by immigration requirements. My desire to create a good things in my life. I was born to be free , and not to spend time in jail. I want to associate with my wife and my son and support them financialy no metter where I will be. If I will be in Ukraine I would like to communicate with my son every day. The deportation is a big punishment for me, and its will be vey hard to start my life all over, but I don't see other options. I am a very serious and responced for everything I am writing here, in my declaration. I hope that Court Administration with a Judge Mastroianni will except my petition and I will have the answer soon. Thank you!
